

VIBFAST PIGMENTS PVT. LTD.

Safety Data Sheet

According to Regulation OSHA HazCom 2012
S.GHS.U.S.A.EN)

Date / Revised : 10.09.2022
Product : PIGMENT BLUE 15:1

Revision No. 1.1

Page 1 of 7

I. Identification of the substance/preparation and of the Company/Undertaking

Product Identifier:

Trade Name : Vibfast Blue 7060 – 160
Chemical Name : PIGMENT BLUE 15:1
REACH registration No. /
Pre – Registration No. : 01-2119458771-32-0050
Use of the substance / the
preparation : Colorants for Plastics, Paints, Printing inks, Textile, etc.
Proper Shipping Name : Not Applicable
Other means of identification : Not applicable
CAS Number : 147-14-8

Details of Manufacturer / Supplier:

Supplier(Manufacturer) : Vibfast Pigments Pvt. Ltd.
Address : C-1, 91/6, Phase 1, G.I.D.C., B/h. Bank of India, Vatva,
Ahmedabad-382 445, INDIA
Telephone : 0091-79-32920774, 0091-79-64501424
Fax : 0091-79-25893014
Emergency telephone No. : 0091-79-32920774
e-mail : amit@vibfast.com

2. HAZARDS IDENTIFICATION

Classification of Substance or mixture

GHS Classification : Not Applicable
Label Elements:
GHS Label Elements : Not Applicable
Hazard Statement(s) : Not Applicable
Precautionary Statement(s): Prevention: Not Applicable
Precautionary Statement(s): Response: Not Applicable
Precautionary Statement(s): Storage: Not Applicable.
Precautionary Statement(s): Disposal: Not applicable.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical characterization : 29H,31H-phthalocyaninato(2-)-N29,N30,N31,N32 copper
CAS No., description : 147-14-8,Pigment Blue 15:1, C.I. 74160
Identification No. : EINECS No. 205-685-1
% (Weight) : 100

VIBFAST PIGMENTS PVT. LTD.

Safety Data Sheet According to Regulation OSHA HazCom 2012 S.GHS.USA.EN)		
Date / Revised : 10.09.2022 Product : PIGMENT BLUE 15:1	Revision No. 1.1	Page 2 of 7

4. FIRST AID MEASURES

Eye Contact	If this product comes in contact with the eyes: i) Wash out immediately with water. ii) If irritation continues, seek medical attention. Removal of Contact lenses after an eye injury should only be undertaken by skilled personnel.
Skin Contact	If skin contact occurs: i) Immediately remove all contaminated clothing, including footwear. ii) Flush skin and hair with running water (and soap if available) iii) Seek medical attention in event of irritation.
Inhalation	If fumes or combustion products are inhaled remove from contaminated area. Prostheses such as false teeth, which may block airway, should be removed, where possible, prior to initiating first aid procedures. Apply artificial respiration if not breathing, preferably with a demand valve resuscitator, bag-valve mask device, or pocket mask as trained. Perform CPR if necessary. Transport to hospital or Doctor.
Ingestion	If swallowed do not induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Give water to rinse out mouth, then provide liquid slowly and as much as casually can comfortably drink. Seek medical advice.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

For copper intoxication:

- i) Unless extensive vomiting has occurred empty the stomach by lavage with water, milk, sodium bicarbonate solution or a 0.1% solution of potassium ferrocyanide (the resulting copper ferrocyanide is insoluble).
- ii) Administer egg white and other demulcents.
- iii) Maintain electrolyte and fluid balances.
- iv) Morphine or meperidine (Demerol) may be necessary for control of pain.
- v) If symptoms persist or intensify (especially circulatory collapse or cerebral disturbances, try BAL intramuscularly or penicillamine in accordance with the supplier's recommendations.
- vi) Treat shock vigorously with blood transfusions and perhaps vasopressor amines.

VIBFAST PIGMENTS PVT. LTD.

Safety Data Sheet

According to Regulation OSHA HazCom 2012
S.GHS.U.S.A.EN)

Date / Revised : 10.09.2022
Product : PIGMENT BLUE 15:1

Revision No. 1.1

Page 3 of 7

- vii) If intravascular haemolysis becomes evident protect the kidneys by maintaining a diuresis with mannitol and perhaps by alkalinizing the urine with sodium bicarbonate.
- viii) It is unlikely that methylene blue would be effective against the occasional methemoglobinemia and it might exacerbate the subsequent haemolytic episode.
- ix) Institute measures for impending renal and hepatic failure.
(GOSSELIN, SMITH & HODGE: Commercial Toxicology of commercial products)
- x) A role for activated for charcoals or emesis is, as yet, unproven.
- xi) In severe poisoning CaNa₂EDTA has been proposed.
(ELLENTHORN & BARCELOUX: Medical Toxicology)

5. FIRE FIGHTING MEASURES

- Suitable Extinguishing media** : Co₂, powder or water spray, fight larger fires with water spray or alcohol resistant foam.
- Protective equipment** : Wear self-contained respiratory protective device. Wear fully protective suit.

Fire /Explosion Hazard:

Avoid generating dust, particularly clouds of dust in a confined or unventilated space as dusts may form an explosive mixture with air, and any sources of ignition, i.e. flame or spark, will cause fire or explosion. Dust clouds generated by the fine grinding of the solid are particular hazard; accumulations of fine dust (420 microns or less) may burn rapidly and fiercely if ignited – particles exceeding this limit will generally not form flammable dust clouds; ones initiated, however, larger particles up to 1400 microns diameter will continue to the propagation of an explosion.

After combustion likely chances of gases like oxides of carbon and nitrogen may emit noxious and toxic fumes.

6. ACCIDENTAL RELEASE MEASURES

Person-related safety precautions :

Use protective equipment as indicated in item 8. Avoid inhalation of dusts.

Measures for environmental protection :

Dilute with plenty of water. Do not allow to enter sewers / surface / ground water.

Measures for Cleaning/collecting :

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Additional information :

No dangerous substances are released.

7. HANDLING AND STORAGE

Safe Handling	Prevent formation of Dust. Use in a well-ventilated area. Take precautionary measures against electrostatic charges – eating is necessary during loading operation. Avoid exposure to open flame or spark. Wear protective clothing when risk of exposure occurs.

Safety Data Sheet

According to Regulation OSHA HazCom 2012
S.GHS.U.S.A.EN)

Date / Revised : 10.09.2022	Revision No. 1.1	Page 4 of 7
Product : PIGMENT BLUE 15:1		

	Avoid contact with incompatible materials.
Other Information	Store in original containers. Keep Container securely sealed. Store in cool, dry area protected from environmental extremes.
Suitable Container	Packing as recommended by manufacturer.
Storage incompatibility	Avoid exposure to flame or spark. Prevent formation of Dust. Use in well-ventilated area.

Package Material Incompatibilities: Not applicable.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION :

Control Parameters

Occupational Exposure Limits (OEL)

Ingredient Data

Source	Ingredient	TWA	STEL	Peak	Notes
US OSHA Permissible Exposure Levels (PELs) – Table Z1	C.I. Pigment Blue 15:1	0.1 mg/m ³ /1 mg/m ³	Not Available	Not Available	(as Cu)/(as Cu); Dusts and mists

Emergency Limit

Ingredient	TEEL -0	TEEL-1	TEEL-2	TEEL-3
Pigment Blue 15:1	Not available	Not Available	Not Available	Not Available

Ingredient	Original IDLH	Revised IDLH
C.I. Pigment Blue 15:1	Not available	Not available

Personal Protection:

Appropriate Engineering Controls: Where suitable engineering controls are not fitted or are inadequate, wear suitable personal protective equipment.

Eye and face Protection: Safety glasses with side shields. Contact Lenses may pose special hazard; soft lenses may absorb and concentrate irritants.

Skin Protection: See Hand protection below.

Hands /feet protection Wear suitable glove nitrile rubber

Body protection: See other protection below

Other protection: No special equipment needed when handling in small quantity.

Thermal Hazards: Not available.

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information:

Appearance : Powder
Color : Blue
Odour : Odourless

Important health, safety and environmental information:

pH : 6-8
Melting Point/range(°C) : Undetermined
Boiling point/range(°C) : Undetermined
Flash point(°C) : Not Applicable
Density (g/cm³) (20 °C) : 1.30-1.32
Water solubility (g/l) at 25 °C : Slightly soluble / insoluble
Danger of explosion : Product does not present an explosion hazard.
Organic solvents : 0.0%
Solid contents : 100.0%

10. STABILITY AND REACTIVITY

Reactivity	See Section 7
Chemical Stability	Stable under normal Conditions
Possibility of Hazardous reactions	See Section 7
Conditions to avoid	See Section 7
Incompatible Material	See Section 7
Hazardous decomposition Products	See Section 5

11. TOXICOLOGICAL INFORMATION

Acute toxicity:

LD/LC 50 values relevant for classification :

Oral LD50 > 5000 mg/kg (rat)

Primary irritant effect :

On the skin : Not irritant (data from literature).

On the eye : Not irritant (data from literature).

Sensitization : No sensitizing effect known (data from literature).

Additional toxicological information :

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

The substance is not subject to classification according to the latest version of EU lists.

12. ECOLOGICAL INFORMATION

Toxicity:

VIBFAST PIGMENTS PVT. LTD.

Safety Data Sheet

According to Regulation OSHA HazCom 2012
S.GHS.U.S.A.EN)

Date / Revised : 10.09.2022
Product : PIGMENT BLUE 15:1

Revision No. 1.1

Page 6 of 7

Copper is unlikely to accumulate in the atmosphere due to a short residence time for airborne copper aerosols. Airborne coppers, however, may be transported over large distances, copper accumulates significantly in food chain.

Drinking water standards:

3000 ug/l (UK Max)

2000 ug/l (WHO provisional Guideline)

1000 ug/l (WHO level where individuals complain)

Soil Guidelines: Dutch Criteria

36 mg/kg (target)

190 mg/kg (target)

190 mg/kg (intervention)

Air Quality Standards: no data available.

Persistence and degradability:

Ingredient	Persistence: Water /Soil	Persistence: Air
C.I. Pigment Blue 15:1	Low	Low

Bioaccumulate Potential:

Ingredient	Mobility
C.I. Pigment Blue 15:1	Low (BCF = 11)

Mobility in soil

Ingredients	Mobility
C.I. Pigment Blue 15:1	Low (KOC = 10000000000)

13. DISPOSAL CONSIDERATIONS

Waste Treatment Method:

Product/ Packaging Disposal: Waste disposal should be carried out according to local, State or National Legislation.

14. TRANSPORT INFORMATION

Labels Required:

Marine Pollutant: No

Land Transport (DOT): Not regulated for Transport dangerous goods.

Air Transport(ICA0-IATA/DGR): Not regulated

Sea Transport (IMDG-Code/GGVSee): Not Regulated

Transport in bulk according to Annex II of MARPOL 73 / 78 and the IBC Code:

Source	Ingredient	Pollution Category
IMO MARPOL 73/78 (Annex II) – List of Noxious Liquid substances carried in Bulk	C.I. Pigment Blue 15:1	X

15. REGULATORY INFORMATION

Safety, health and environmental Regulations / Legislation for substance or mixture:

C.I. Pigment Blue 15:1 (147-14-8) is found on the following regulatory Lists	'US-California Permissible Exposure Limits for Chemical Contaminants', 'US-Idaho- Limits for Air Contaminants,' 'US-Hawali Air Contaminant Limits,' 'US-Vermont Permissible Exposure Limits Table Z-1-A. Final Rule Limits for Air Contaminants,' 'US California OEHHA/ARB – Acute Reference Exposure levels and Target Organs (RELs),' 'US-Washington Toxic Air Pollunatnts and their ASIL, SQER and de minimis emission values, US- Minnesota Permissible Limits (PELs),' 'US – Vermont Permissible Exposure Limits Table Z-1-A, Transitional Limits for Air Contaminants,' 'US OSHA Permissible Exposure Levels (PELs) – Table Z1, US Toxic Substances Control Act (TSCA) – Chemical Substance Inventory'
